- continuously height adjustable holder for test probe
- continuously height adjustable windings for measuring leads
- integrated LED-warning light in the side rails
- delivery of assembled, directly usable rolling tables
- rolling tables and carriages of the company here

Rolling tables facilitate the transport of testers that can also be combined with a test cover between the test objects. A high level of usability is achieved by the large, high-resistant and lockable rubber guide rollers as well as an optional push handle at the table's front.

The rolling tables can additionally be equipped with self-closing drawer runners, in which e.g. adaptors, tools, or documentations can be stored.
